

AVIP: Sticker Printing on Demand

Car/Truck/School Bus Sticker Placement Yellow Sticker Stock

Placing the New Sticker in the New Location on the Windshield

Once you have removed the printed sticker from the printer, you are ready to place it on a vehicle.

Peel off the window frame layer from the adhesive around the edge of the Yellow sticker.

For best results, the lower left hand portion of the windshield should be clear and clean.

Press the sticker with printed side against the windshield.

The sticker should be placed as far down and to the left of the inside of the windshield as you can manage, out of the field of vision of the driver.

Take care not to obstruct the VIN plate or other important windshield markings.

Press firmly against the glass, rubbing the sticker to get rid of any air bubbles.
